

Winner - British Education and Training Technology Awards 2011

ICT Education Partnership

Learn TPM Ltd and Scottish Qualifications Authority

Development of Games Based Assessment Products for Skills for Work

The best in ICT for education were rewarded at the 2011 BETT Awards held on the 12 January 2011 at London's prestigious Hilton hotel.

The BETT Awards endeavour to recognise, reward and promote excellence in a showcase of the most outstanding sector products and learning solutions available today.

With around 600 guests present, the comedian Alun Cochrane presented and handed out the awards to the deserving winners. With a high quality and quantity of entries, the judges, who are all respected educational professionals, worked tirelessly to shortlist the entries and then chose the eventual winners.

Judges Comments

"The quality of entries this year has been consistently high, highlighting the tremendous vision of the ICT industry and its commitment to education. The BETT Awards judgements were achieved through lengthy analysis and detailed discussions."

"The judges thought this was a clear winner because of its partnership working in achieving creative e-learning solutions. The submission showed collaboration in an exciting environment. They were impressed to see a Qualifications Authority treating gaming seriously."

"The judges felt that this partnership and the resources they Create, bring course-assessment and learning into the twenty-first century."

Ray Barker, director, BESA, the sector's trade association and partner of the BETT Awards commented: **"The winner's products and services ensure the UK ICT industry continues to be recognised as the best in the world. The quality of these learning resources is a testament to business' operating within the UK education sector."**

Andy MacPherson, Founder and Managing Director of Learn TPM Ltd commented:

"We are naturally highly delighted and extremely proud to have picked up this prestigious award. It is particularly pleasing that the award recognises our core principle of working collaboratively with professionals, who are experts in their field, to achieve excellent outcomes which are fit for purpose"
